## Emperor blue mackerel my time at portia

From My Time At Portia Wiki A rare fish species living in icy waters. ~ My time in Portia Blue Mackerel is a native fish to Portia. It weighs between 2.5 and 5.425 kg and can be between lengths. Blue Mackerel is available at the following Fishing Places: TBD 8: Normal (16% chance), Emperor (4% chance) Emperor Blue Mackerel is a special range of rare Blue Mackerel, harder to catch, and worth more than the usual Blue Mackerel. It weighs between 5.425 and 7 kg and can be between lengths. This post contains all the information you need to know about fishing in My Time in Portia. We've spent a lot of time creating this Portia Fishing Guide. So it contains information about fishing tools, fishing skills (from the Portia skill tree), fish type and where to catch it. Moreover, you will know what recipes have fish as ingredients. What you need for fishing in Portia It is very easy to learn how to fish in Portia. But before that, you need to collect a few things to get started. First of all, you need to make a fishing rod. The first recipe you get is almost at the start of the game when Qiwa asks you to make fishing rides for him. Mission called: Fishing Rod and it's a secondary mission, so be careful not to skip. You can also, look at the recipe for it before getting a search. Plus, your fishing rod, too, requires Caterpillars. Better if you are going to fish regularly. You can get Caterpillars in My Time in Portia from gathering primarily. Plants such as herbs, bamboo pedals, snake berries or any other gathering plant can drop you caterpillar as well. They are the only fishing bait, so don't ignore these Portia Fishing Guide tips: gather everything you see to get as many caterpillars as possible. In other cases, you have to buy it at Sophie's Ranch for 4 goals (it's a price of 100% but by the time I'm at a price Portia can change due to economic change). How to craft a fishing rod in My Time in Portia For Beginner Fishing Rod craft you will need Work Level 1 to make it and Stone Fugities for craft parts for it. Beginner Fishing Rod Material: 15 sticks (get it from logging, you need an axe)2 wild cocoa (get it from kicking a particular tree)1 copper bar (melt 3 ore copper on the furnace, that you get from the quarry) This type of riding will not give you a lot of help in fishing. So, if you want to get a better catch or fish for a rare species of fish, you need to make a Classic Fishing Rod. For craft, you need Twelves Level 2, Grinder and Industrial Folds craft parts for it. Classic Fishing Rod Material: 3 bronze pipes (craft with Grinder from 2 bronze bars)2 wild cocoa (with a bronze axe you can also get it from logging)1 bar Mangann steel (diluted 4 ore and 1 mangann on the Industrial Foof) The difference between these two fishing rods not only classic Rod gives you more stability and makes the fishing process easier. So we you make it as soon as possible if you want to fish more effectively. Moreover, it will help you a lot during My Time at Portia Fishing Day which hits each year in the spring on Friday 12th and 13th Saturday. To learn more about the event only according to the links provided. How to get a Master fishing rod This is a certain fishing rod that you can't make a craft. You can only get it by completing special terms. The possibility to get it opened when you're going to build the Portia Museum (follow the link if you want to know what it is and how to build it). As a Portia Fishing Guide for so long we can't tell you about it our selves here. When the museum is ready, you need to donate to all kinds of emperor's fish from every 13 species of fish. They are: CatfishFrog FishGolden SalmonGoliathBanner FishBubblefishLantern FishKoi FishFirefishBlade FishWise FishGladiator FishBlue Mackerel You will know that you get the emperor's fish because it will start with the emperor's label and it will be harder to catch that easy. After you donate one emperor's fish per species you will get your child fishing the next day in your mail. How to fish at My Time in Portia After getting the desired fishing stick and bait going to the nearest fishing place to study fishing. You don't need specific skills to start only your skills as a player. Place the fishing stick on your character panel and keep your caterpillar in the inventory. If everything is right in the fishing venue, you will be able to press E any other bond, you need to start fishing. Note: the chance of catching fish is 92% while the chance to catch any other item is 8%. Every actor you make brings you 6 stamina points, so you can consider taking food with you. When you see a red question mark it means that you connect the fish, after which it starts an interesting part. Now you need to start reeling - press the mouse button (or the controls you see as indicators). Reeling will increase the tension indicated by the red bubble in the white bubble. Hold the controls to back up the lines. You'll see how your bubble becomes red. Don't let it fill all the red! That will cancel your fishing and the fish will disappear. So the point is to rewind while the bubble still has transparency following the fish path. You will also see the numbers on the screen showing how many meters are left before you get the fish off the water. Basically everything you need to know about the fishing process during my time in Portia itself. But further in Portia's fishing guide, we will you how to make this process easier. The skill that helps fish in My Time in Portia In the game, your character has a skill tree. It consists of three branches: fights, gatherings and socially. Therefore, the skills associated with fishing are in the skills of The Group. It is called the Fish Encyclopedia. Basically, it only helps identify fish before fishing. Sometimes it is useful if you need some specific species. But further in the Portia Fishing Guide, we will

all the fishing spots in Portia. So to get Fish Encyclopedia skills as quickly as possible and profit to fish you from other skills, you need to spend your skills points in the following order: First, put all 5 points in Lucky Me skills. That will increase your chances of getting more bait fishing faster. Then put 4 skill points in Power Up skills. That will increase your maximum stamina so you will be able to fish for longer without eating. Another skill is included in any of advanced Lumbering's following skills, Advanced Mining, Lively. None of them affect fishing a lot. And after spending 10 points of this skill, you can finally get the skills of the Fish Encyclopedia. All other skill points you can spend whatever you like because they don't influence the fishing process itself. All fishing venues and fish species in My Time at the Portia Fishing Places in My Time in Portia are marked on the map with violet circles and white fish inside.
